

## coal mill accessorie

After years of efforts to develop, now, the Great Wall of steel products has been exported to 25 countries,for example,Japan, Korea, Russia,Italy,Turkey,etc. In recent years, with superb casting technology, high-quality products, the Great Wall cast steel to attract Japan, South Korea and other overseas people come to visit. Japan, a coal mill manufacturers specify the Great Wall steel castings to provide all kinds of important components.

Great Wall Cast Steel is a famous casting supplier, the advantages of our products:

- 1.heat treatment technology
- 2.high strength steel
- 3.wear-resistant and anti-impacting

### Coal Mill Roller Cover

Weight : 3~20 t

Material :ASTM : A-27 70-40 / JIS: SCW480

Applicable device: coal mill parts

Application: Cement, electricity, metallurgy, chemical, non metallic mine and others

Customizable : Yes

### Roller Shaft Bearing chock

Weight : 3~10 t

Material : ASTM: A-27 70-40 / JIS: SCW480

Applicable devices: coal ball mill part

Application: cement, electricity, .metallurgy, chemical industry, non-metal mine etc.

Customizable : Yes

### Door Frame of coal mill

Weight : 3~20t

Material : ASTM: A-27 70-40 / JIS: SCW480

Applicable devices: coal mill spare parts

Application: cement, electricity, .metallurgy, chemical industry, non-metal mine etc.

Customizable : Yes

### Bearing Chock

Weight : 1-150t

Material : ASTM: A-27 70-40 / DIN: 20Mn5

Applicable device: coal mill parts

Application: Cement, electricity, metallurgy, chemical and others

Customizable : Yes
