

## China Casting Slag Pot Manufacturer - CHAENG

As a professional manufacturer of cast slag pots in China, Xinxiang Great Wall Casting (CHAENG) believes that the most important thing for slag pot manufacturers to improve sales and expand sales is to build quality.

To build a product brand, we must have the spirit of craftsmanship, and we need to work hard on the casting process technology improvement. CHAENG has many years of experience in slag pot casting and processing and has formed a set of mature technical solutions. CHAENG can manufacture many types of slag pots, which can meet the individual needs of various users. When casting and processing slag pots, CHAENG will communicate with users in detail according to the drawings provided by users and deepen the drawings, use computer simulation technology to restore the entire casting process, and finally optimize the casting process, so that the processing and casting can be achieved.

The slag pot of CHAENG has the characteristics of long service life, high-temperature resistance, and is not easy to fracture. In addition, CHAENG has greatly improved the performance of slag pot through continuous improvement, process improvement, and chemical composition optimization. At present, a complete comprehensive technical standard for processing, manufacturing, testing, and acceptance has been formed. CHAENG slag pots have been successfully sold to more than 50 countries and regions such as the United States, Mexico, Brazil, India, South Korea, Japan, and Russia.
